South African

ABOUT

I'm Rossanne, a developer from Johannesburg, currently working as a contract Software Developer. I have been in the IT industry for 2+ years now. I am proficient in coding (Java, SQL & C#). I also have experience with CMS platforms (WordPress & Drupal) and web design.
I enjoy a good cup of tea, gaming, music and movies. I am also an asset to any game of 30 Seconds due to my encyclopaedic knowledge of useless facts.
